Evaluating Information
worksheet

***Who is the author/creator?**

What is the author/creator's background or expertise?

***Does the author/creator/publisher have any obvious motives that may affect how the information is presented?**

***What is the date of publication or date of last update?**

Is this significant for this information?

***What audience is this information aimed at? Why do you say that?**

Is the information understandable? If not, where would you look to find information that is understandable?

***Where did the information come from?**

How was the specific information/results obtained?
